IPS  
LED

Incorporated with advanced OptiCom™ Technology, the LE-24 FHD display sitting on a height adjustable stand fits perfectly for home and office applications.

AG Neovo's advanced OptiCom™ Technology eliminates emission of harmful blue light and bothersome flicker to reduce eye fatigue and dryness when viewing the display constantly. The 24" LE-24 also features an IPS panel with full HD resolution and 20,000,000:1 contrast ratio for superior picture clarity and colour performance. Sitting firmly on a height adjustable stand, users are able to tilt, pivot, swivel and adjust the screen's height for optimized viewing comfort. All this and more make the LE-24 ideal for home and office multimedia applications.
