

Brighter Output

The effect of the 4 LEDs will create an extremely blinding output, which effectively will deter any criminal instantly.

Durable Design

The LEDs are highly durable, and won't incur any impact during transportation nor the LEDs inside the strobe.

Longer Lifespan

LED lights have a longer lifetime, making the Security LED Strobe a great choice for people who want minimal maintenance and great value for money.

Energy-Efficient

The Security LED Strobe only has a power consumption of only 400 watts, which makes it an energy-efficient option.

2 year warranty

Security LED Strobe comes with a 2 year warranty.

Security LED Strobe™

Our Security LED strobe will send out a rapid series of blinding lights when it's activated. Not only will the fog create confusion for the intruder, but with the added effect of a Security LED Strobe, the thieves will have no choice but to run away before they even get close to stealing anything.

Features:

- Security LED Strobe makes 6-8 flashes per second and in combination with security fog it's impossible for burglars to orientate and navigate the premises
- We recommend Security LED Strobe because no one can steal with both hands covering their eyes
- Suitable for all alarm systems
- Security LED Strobe is vandalism-proof with impact-resistant front
- For wall and ceiling mounting

Specifications:

Product type: LED Strobes
Type: LED Strobe, Strobe / Blinder
Colour spectrum: White
Number of LEDs: 4
LED type: 100 Watt
Dispersion: 90°
Refresh rate: 1-30 Hz
Operating voltage: AC110V - 240V, 50-60 Hz
Power consumption: 400 W
Power connector: PowerCON locking 3 connector
Signal connector: Cable 1 meter
Input signal: 12 Volt Normally open (NO)
Housing material: Metal
Cabinet colour: Black or White
Dimensions: 49,5x22,5x25 cm
Net weight: 6,6 kg

Printing errors excepted. Subject to changes to technical data.
